ABSTRACT

Last Name:

First name:

Title of the research project (255 characters max.)

Abstract of the research project (3000 characters max., spaces included)

Research project

Your document (no more than **10 pages, Arial 10, including figures but excluding references**) should adhere to the following format:

- State of the Art and Proposed Project divided into Work Packages. The project will be backed up by references that include the major relevant publications.
- Experimental Approaches: Adequacy and relevance
- Originality and Feasibility of the Project
- Expected Results
- Expected Applications in the Medical, Social, Economic, and Technological Domains
- Collaborations (please clearly specify the collaborators, especially those outside of France, as well as any potential collaboration or competition with the post-doctoral laboratory).
- Detailed Work Plan for the 5 years + long-term goals

Formatting References: Please use the reference style outlined by the International Committee of Medical Journal Editors (ICMJE), also referred to as the "**Vancouver**" style (title and list of all authors).

List of Your Publications limited to accepted publications / Invited Conferences / Patents

For each reference, give the full name and initials of each author in the exact order, full title, name of journal, year of publication, volume number, first and last pages.

Gantt chart (mandatory)

Define milestones for your Work Packages for the 5-year period while ensuring the alignment of objectives with human and financial resources.
